

SOURCING ANALYST

Entrepreneurial? Driven? Passionate? Then A.T. Kearney has the career for you.

A.T. Kearney does more than help businesses change. We help them achieve the kind of significant impact that drives competitive advantage. In order to drive these changes in the procurement and supply chain areas, A.T. Kearney Procurement & Analytic Solutions (PAS) provides comprehensive strategic services and solutions to large and medium sized clients, both foreign and domestic, seeking to dramatically improve bottom line performance. Our services and solutions are delivered by highly-experienced procurement professionals; leveraging solutions that accelerate and streamline the sourcing and supply management process.

We are currently seeking individuals to bring into our PAS practice in the role of Sourcing Analyst. Sourcing Analysts bring with them strong business acumen, significant analytical abilities and a deep passion for solving complicated problems. Sourcing Analysts consistently deliver impactful results in support of our clients and our project teams.

Areas of Responsibilities

- Analyze, manipulate, cleanse and validate data from a variety of sources and platforms
- Develop and refresh supply market analysis for key categories
- Support the customer category team in developing a supplier communications plan in support of Sourcing strategy
- Supplier identification, outreach and site visits
- Validate and analyze bids and supplier offers
- Support benefits estimation and documentation
- Use PowerPoint to document and present project findings and business requirements

What we Seek

- Bachelor's degree in Mathematics, Statistics, Business, or Engineering from a top academic institution is preferred
- GPA 3.3 or above is required

- Experience in Excel, Access or SQL server preferred
- Outstanding problem-solving skills and work ethic
- Superior organizational skills and attention to detail
- International Experience is highly valued
- Previous strategic sourcing in the China market and/or consulting is a plus
- Strong communication and analytical skills in both Chinese and English
- Willingness to travel extensively if required by project

What we Expect

The role of a Sourcing Analyst with A.T. Kearney Procurement & Analytics Solutions offers:

- Rapid enhancement of skills with constant exposure to new industries and projects
- Opportunity to influence project direction and make a significant contribution from day 1
- Personal and professional development in both supply chain and general business management

We currently have openings for Sourcing Analysts in our Shanghai office. Projects may be Shanghai, China or Asia Pacific based. Depending on the location of the client, the position may require up to 100% travel.
