

ANALYST

A.T. Kearney does more than help businesses change. We help them achieve the kind of significant impact that drives competitive advantage. To accommodate the growing market need for analytical expertise for supply chain, sourcing and supplier management services, we have formed a practice to serve large and medium-sized corporate and government organizations. Analytics, a division of A.T. Kearney Procurement & Analytic Solutions (PAS), provides analytical expertise to support and drive business solutions. We are seeking to hire individuals as Analysts.

Analysts bring strong business acumen, rooted in sophisticated analytics training, to various client projects across a broad range of management consulting engagements. While every project is different, our Analytics team consistently delivers high-impact, tangible results. By building a foundation with impactful data behind each client, we are able to focus our thinking in the areas of greatest importance and touch the true drivers of change. Analysts pair in-depth analysis, custom tools, and sophisticated modeling with strategic thinking to produce results that routinely exceed client expectations.

As an Analyst, your primary responsibilities will be to:

- Provide analytical rigor and technical expertise on client engagements and internal projects
- Learn and deploy supply chain management and sourcing techniques
- Understand our clients' business needs and assist in developing accurate solutions
- Map where the information lies within complex corporations and work with our clients to gain access to the data
- Interview client contacts to validate data, collect qualitative information and gain client insight
- Analyze, manipulate, cleanse and validate data from a variety of data sources and platforms

How to Apply

To apply for this position, send resume and cover letter to Analytics_Recruiting@atkearney.com

A.T. Kearney PROCUREMENT & ANALYTIC SOLUTIONS

- Use PowerPoint to document project findings, business requirements, data dictionaries
- Present work to internal and client teams

What We Seek

- Minimum Bachelor's Degree, preferably in a quantitative discipline, cumulative GPA of 3.3 or higher
- Experience in Excel, Access and/or SQL Server
- Ability to understand the impact of accurate data on client projects and in the management consulting business
- Strong organizational, verbal communication and writing skills
 - Analysts work in team environments with other Analysts, team members and clients from all levels of the organization, with varying backgrounds
- Outstanding problem-solving skills and work ethic
 - Analysts are consistently faced with new challenges, requiring them to utilize managerial, educational and other resources

What You Can Expect

The role of an Analyst with A.T. Kearney PAS offers:

- Rapid enhancement of skills with constant exposure to new industries and projects
- Opportunity to influence project direction and make a significant contribution
- Work in a hybrid consulting role, combining strategic business consulting skills with technical capabilities

We currently have openings in North America in New York, Chicago, Dallas, and the Washington, D.C. area. This position involves 80% travel. Analysts typically work at the client site Monday through Thursday and in an A.T. Kearney office on Fridays.
